

PASS Autocar Manual

As from January 1 2018, parking declarations are compulsory. A PASS Autocar is only valid after it has been activated.

Activation procedures:

For PASS Autocar Occasional coach passes:

You must provide the activation code received upon purchase of your subscription:

- by logging in to the PASS Autocar website at the following address:
<http://www.passautocar.paris.fr/declaration>
- by SMS to **+33 6 44 63 97 51**
- or by presenting the code to the personnel responsible for tourist coaches

Entry into a secure parking area automatically activates the PASS Autocar. If you have multiple subscriptions, you must activate them before entering the parking area or by presenting your entry ticket and subscription number to the personnel responsible for tourist coaches.

For PASS Autocar Subscriber coach passes:

You must provide the activation code received upon purchase of your subscription, including the selected parking zone and parking period:

- by logging in to the PASS Autocar website at the following address:
<http://www.passautocar.paris.fr/declaration>
- by SMS to **+33 6 44 63 97 51**
- or by presenting the code to the personnel responsible for tourist coaches

Entry into a secure parking area automatically activates the PASS Autocar for that zone.

The parking period can be modified before the expiry of your current PASS Autocar by following the same activation procedure, within the authorised time limit. Otherwise, the parking period is calculated by rounding to the end of the concluded parking period.

Each new parking period must be declared.
